Investigating College Algebra and Trigonometry with Technology, with Student CD-Rom and Access Code Card (Key Curriculum Press) Kathy Burgis, Jeff Morford

Technology and an investigative pedagogy are powerful tools for fostering in-depth understanding of mathematics concepts. Investigating College Algebra and Trigonometry with Technology presents the core concepts of College Algebra and Trigonometry within a technology-oriented, data-driven, applied framework that embraces investigative, collaborative learning. With this text, readers use graphing calculators, and optionally Microsoft® Excel and other technologies, to explore patterns and to make, test, and generalize conjectures. Most importantly, investigations--which engage readers in analysis of real-world data--promote collaboration and bring relevance to the mathematics students are learning.
