## **Solve Common Teaching Challenges in Children with Autism: 8 Essential Strategies for Professionals & Parents (Topics in Autism)** Lara Delmolino

Even veteran teachers of students with autism sometimes need help to determine why their instructional methods are not getting the desired results. In **Solve Common Teaching Challenges in Children with Autism**, behavior and education experts describe 8 potential problem areas, and offer teaching strategies to promote successful learning:

- Motivation (provide appropriate reinforcement)
- Manding (teach requesting & responding skills)
- Learning-to-Learn (teach basic prerequisite skills: attending, waiting for feedback, etc.)
- Prompting (when to use physical guidance, gesturing, verbal instruction)
- Language Environment (comprehension aid or distraction?)
- Learning Opportunities (provide quality over quantity)
- Individualizing Instruction (tailor it to the student's needs)
- Skills & Goals (make it meaningful & purposeful)

Each chapter offers an illustrative case study, a critical examination of why the problem arises, and practical instructional solutions. Additional material within chapters--a table, glossary, checklist, Q & A, chart, or form--helps readers to further assess the issue. Educators, therapists, and parents familiar with ABA methods will feel empowered by this handy guide and reinvigorated to solve their teaching challenges.
