If you've gained your knowledge of the Wild West from Hollywood and history textbooks, your image of the Western frontier is simple and clear: White men winning the West and saving helpless white future wives from outlaws or hostile Indians or Mexican banditos.

You won't find that here.

Here:

U.S. Marshal Frederick Douglass fights invaders from outer space.

A Navajo girl must thwart the god who threatens all she holds dear.

A Hasidic high planes drifter faces New World bandits and Old Testament demons.

A Catholic priest contends with a magic-wielding half-breed--or is she an indigenous spirit?--as the fate of the Canadian Métis province of Assiniboia hangs in the balance.

Outcast women enter the Southwestern desert to die...or win their lady loves and great mecha steeds.

A lost gunman may find himself in a Chinese gold miner's maze of mist and magic.

Roving spirits and Civil War survivors and runaway factory slaves lose or find family or love in uncanny new guises.

Hoboes rob a train of myth and dream.

An Eastern city slicker may outsmart only himself in a contest with Old West magic.

A black homesteader fights fae in defense of land and family.

A werewolf-hunting frontier shapeshifter shatters every expectation.

Steampunk airships may unite West and East--or leave them forever apart.

The ascendant Aztec face endless destruction if the god of war triumphs.

The South will rise again at the Alamo--if it can gain eerie otherworldly assistance.
