Maya Ajmera and Greg Fields provide the architecture of a new perspective on the global agenda for children, based on a new global web of relationships stemming from the community level. Arguing that the existing global agenda for children has failed, this book reimagines how society can support the world's most vulnerable children. In doing so, *Invisible Children* identifies and gives voice to the millions of children globally living on society's margins, while showing a way forward as to how we can best invest in children.
