## **Claimed by the Warrior** Katie Reus, Savannah Stuart **Held captive against her will...**

When Leilani travels to the mountain region of her new planet, Lumineta, she discovers the remote mountain clan has a law stating that any unmated female in their sector can be forced to live there for one moon cycle. At first she's livid—until she realizes that being held captive means that the warriors bring her gifts and simply try to impress her as part of their courting rituals. But she's not interested in anyone except the sexy leader—and living under his roof makes her feel nothing like a captive. He has her rethinking everything she thought she knew about Luminet males.

## **The last thing he needs in his life is a complicated human female...**

Con has never thought much about taking a mate. As leader of his clan, he's too busy and females are too complicated—especially those mysterious humans. But the longer he's around Leilani, the more he realizes she's worth fighting for. Despite his planet's tradition that says two males mate with one female, he has no intention of sharing—or ever letting her go.
