College Algebra: Concepts Through Functions Michael Sullivan

This new text embodies Sullivan/Sullivan's hallmarks – accuracy, precision, depth, strong student support, and abundant exercises **while exposing students early (Chapter One) to the study of functions. "IT WORKS"** for instructors and students because it focuses students on the **fundamentals**: *preparing* for class, *practicing* their homework, and *reviewing*. After completing the book, students will be prepared to handle the algebra found in subsequent courses such as finite mathematics, business mathematics, and engineering calculus and will have a solid understanding of the concept of a function.
