Printing Practice ABC features both upper and lower case letters for children to practice their writing skills. There also numbers to trace and additional BONUS pages are also included at the end to help enhance tracing skills. These pages feature animals, toys and other objects for children to trace. Great for Preschool students, kindergartner's and First Grade Students!

Kids can practice all the letters in the alphabet and more! The first section focuses on upper case letters and the second section has pages to practice lowercase letters. Developing handwriting skills early on can give your children an extra advantage when they do start school. Kids who practice forming letters early generally have better handwriting when they are older as well. We also recommend buying a BLANK sketchbook for kids and other drawing books because additional practice drawing, freewriting and coloring can also help kids develop their handwriting skills and artistic abilities.
