Advanced Manufacturing for Optical Fibers and Integrated Photonic Devices Abdul Al-Azzawi

Advanced Manufacturing for Optical Fibers and Integrated Photonic Devices explores the theoretical principles and industrial practices of high-technology manufacturing. Focusing on fiber optic, semiconductor, and laser products, this book:

- Explains the fundamentals of standard, high-tech, rapid, and additive manufacturing workshops
- Examines the production lines, processes, and clean rooms needed for the manufacturing of products
- Discusses the high-technology manufacturing and installation of fiber optic cables, connectors, and active/passive devices
- Describes continuous improvement, waste reduction through 5S application, and management's responsibilities in supporting production
- Covers Lean Manufacturing processes, product improvement, and workplace safety, as well as internal/external and ISO auditing
- Offers a step-by-step approach complete with numerous figures and tables, detailed references, and a glossary of terms
- Employs the international system of units (SI) throughout the text

Advanced Manufacturing for Optical Fibers and Integrated Photonic Devices presents the latest manufacturing achievements and their applications in the high-tech sector. Inspired by the author's extensive industrial experience, the book provides a comprehensive overview of contemporary manufacturing technologies.

From reader reviews:

Dean Rakestraw:

As people who live in the actual modest era should be up-date about what going on or data even knowledge to make them keep up with the era that is always change and progress. Some of you maybe can update themselves by studying books. It is a good choice for yourself but the problems coming to an individual is you don't know which you should start with. This Advanced Manufacturing for Optical Fibers and Integrated Photonic Devices is our recommendation so you keep up with the world. Why, because book serves what you want and need in this era.

Stanley Torres:

Hey guys, do you would like to finds a new book to read? May be the book with the subject Advanced Manufacturing for Optical Fibers and Integrated Photonic Devices suitable to you? The actual book was written by well known writer in this era. Typically the book untitled Advanced Manufacturing for Optical Fibers and Integrated Photonic Devices is the main one of several books that will everyone read now. This specific book was inspired lots of people in the world. When you read this book you will enter the new dimension that you ever know just before. The author explained their idea in the simple way, so all of people can easily to know the core of this e-book. This book will give you a wide range of information about this world now. So that you can see the represented of the world on this book.

Kristen Wright:

Reading can called thoughts hangout, why? Because if you are reading a book especially book entitled Advanced Manufacturing for Optical Fibers and Integrated Photonic Devices your mind will drift away trough every dimension, wandering in most aspect that maybe mysterious for but surely can become your mind friends. Imaging each and every word written in a book then become one form conclusion and explanation that maybe you never get previous to. The Advanced Manufacturing for Optical Fibers and Integrated Photonic Devices giving you yet another experience more than blown away your mind but also giving you useful information for your better life in this particular era. So now let us demonstrate the relaxing pattern this is your body and mind will be pleased when you are finished examining it, like winning a sport. Do you want to try this extraordinary paying spare time activity?

John Smith:

Many people spending their moment by playing outside with friends, fun activity together with family or just watching TV 24 hours a day. You can have new activity to enjoy your whole day by examining a book. Ugh, do you consider reading a book can actually hard because you have to take the book everywhere? It fine you can have the e-book, bringing everywhere you want in your Mobile phone. Like Advanced Manufacturing for Optical Fibers and Integrated Photonic Devices which is obtaining the e-book version. So , why not try out this book? Let's view.
