## **Quantum Relativity: A Synthesis of the Ideas of Einstein and Heisenberg (Texts and Monographs in Physics)** David R. Finkelstein

Over the past years the author has developed a quantum language going beyond the concepts used by Bohr and Heisenberg. The simple formal algebraic language is designed to be consistent with quantum theory. It differs from natural languages in its epistemology, modal structure, logical connections, and copulatives. Starting from ideas of John von Neumann and in part also as a response to his fundamental work, the author bases his approach on what one really observes when studying quantum processes. This way the new language can be seen as a clue to a deeper understanding of the concepts of quantum physics, at the same time avoiding those paradoxes which arise when using natural languages. The work is organized didactically: The reader learns in fairly concrete form about the language and its structure as well as about its use for physics.

### **From reader reviews:**

#### **Ryan Calhoun:**

The book Quantum Relativity: A Synthesis of the Ideas of Einstein and Heisenberg (Texts and Monographs in Physics) can give more knowledge and also the precise product information about everything you want. Why then must we leave a good thing like a book Quantum Relativity: A Synthesis of the Ideas of Einstein and Heisenberg (Texts and Monographs in Physics)? A number of you have a different opinion about e-book. But one aim that will book can give many information for us. It is absolutely suitable. Right now, try to closer along with your book. Knowledge or details that you take for that, you can give for each other; you could share all of these. Book Quantum Relativity: A Synthesis of the Ideas of Einstein and Heisenberg (Texts and Monographs in Physics) has simple shape however you know: it has great and massive function for you. You can appear the enormous world by start and read a guide. So it is very wonderful.

#### **Kathy Woodward:**

This Quantum Relativity: A Synthesis of the Ideas of Einstein and Heisenberg (Texts and Monographs in Physics) book is absolutely not ordinary book, you have after that it the world is in your hands. The benefit you receive by reading this book is usually information inside this publication incredible fresh, you will get data which is getting deeper you actually read a lot of information you will get. That Quantum Relativity: A Synthesis of the Ideas of Einstein and Heisenberg (Texts and Monographs in Physics) without we realize teach the one who studying it become critical in contemplating and analyzing. Don't possibly be worry Quantum Relativity: A Synthesis of the Ideas of Einstein and Heisenberg (Texts and Monographs in Physics) can bring any time you are and not make your carrier space or bookshelves' come to be full because you can have it within your lovely laptop even mobile phone. This Quantum Relativity: A Synthesis of the Ideas of Einstein and Heisenberg (Texts and Monographs in Physics) having great arrangement in word in addition to layout, so you will not sense uninterested in reading.

#### **Deborah Ayers:**

Do you have something that you enjoy such as book? The guide lovers usually prefer to choose book like comic, limited story and the biggest one is novel. Now, why not seeking Quantum Relativity: A Synthesis of the Ideas of Einstein and Heisenberg (Texts and Monographs in Physics) that give your entertainment preference will be satisfied through reading this book. Reading habit all over the world can be said as the method for people to know world better then how they react toward the world. It can't be said constantly that reading addiction only for the geeky man but for all of you who wants to possibly be success person. So , for all of you who want to start studying as your good habit, it is possible to pick Quantum Relativity: A Synthesis of the Ideas of Einstein and Heisenberg (Texts and Monographs in Physics) become your own personal starter.

**Justin Mireles:**

Your reading 6th sense will not betray anyone, why because this Quantum Relativity: A Synthesis of the Ideas of Einstein and Heisenberg (Texts and Monographs in Physics) e-book written by well-known writer we are excited for well how to make book that could be understand by anyone who also read the book. Written throughout good manner for you, still dripping wet every ideas and producing skill only for eliminate your own personal hunger then you still uncertainty Quantum Relativity: A Synthesis of the Ideas of Einstein and Heisenberg (Texts and Monographs in Physics) as good book not merely by the cover but also from the content. This is one reserve that can break don't judge book by its handle, so do you still needing yet another sixth sense to pick this kind of!? Oh come on your examining sixth sense already told you so why you have to listening to another sixth sense.
