**Administrative Justice and the Supremacy of Law in the United States** John Dickinson

Originally published: Cambridge: Harvard University Press, 1927. xiii, 403 pp. Dickinson [1894-1952] examines the relationship between administrative tribunals and the courts, and problems that arise from the judicial review of administrative determinations. Dickinson is especially concerned with factors that determine the scope and purposes of a review. His study is notable in part because it offers a near-contemporary assessment of the Hepburn amendments to the Interstate Commerce Act (1906) and other changes enacted in the early 1900s. With a table of cases. Originally published as Volume II in the series of Harvard Studies in Administrative Law.
