Discover the Stars Richard Berry

For everyone who has looked up at the stars on a clear night and longed to know more about them, here is the perfect introduction and guide to discovering the stars.

Discover the Stars leads you on a tour of all the stars and constellations visible with the naked eye and introduces you to deep-sky objects that can be seen with binoculars or a simple telescope. The tour is conducted by the editor of Astronomy magazine, Richard Berry, whose two-color, computer-plotted sky maps and clear instructions make stargazing fun and productive from your first night out.

The heart of Discover the Stars is two sections of big, beautiful sky maps and charts. The first section features twelve maps that show the entire sky overhead as it appears during each month of the year. These outline all the constellations visible anywhere in the Northern Hemisphere, and the accompanying text reveals the rich ancient mythology that surrounds the star groups.

The second section is made up of twenty-three star charts that depict smaller regions of the sky in great detail. These charts give the names of key stars and lead you to fascinating features such as stars with unusual colors, double stars, variable stars, nebulae, and galaxies.

Separate chapters cover basics, such as how the stars move through the sky, how to find your way around the moon and the planets, making an astronomer's flashlight, and choosing and using a telescope -- all in terms that are easy to grasp and remember.

Discover the Stars is the perfect introduction to the heavens, simple enough to be useful if you're just starting out but packed with enough information to keep you learning and enjoying the stars for years to come.

From reader reviews:

Trevor Wright:

Do you have favorite book? When you have, what is your favorite's book? Book is very important thing for us to learn everything in the world. Each reserve has different aim as well as goal; it means that e-book has different type. Some people really feel enjoy to spend their a chance to read a book. They can be reading whatever they acquire because their hobby is reading a book. Think about the person who don't like examining a book? Sometime, individual feel need book if they found difficult problem or even exercise. Well, probably you should have this Discover the Stars.

Hubert Drummond:

Nowadays reading books become more and more than want or need but also become a life style. This reading addiction give you lot of advantages. The advantages you got of course the knowledge your information inside the book which improve your knowledge and information. The knowledge you get based on what kind of reserve you read, if you want attract knowledge just go with education and learning books but if you want truly feel happy read one along with theme for entertaining such as comic or novel. Often the Discover the Stars is kind of e-book which is giving the reader unforeseen experience.

Kay Davidson:

Playing with family inside a park, coming to see the water world or hanging out with close friends is thing that usually you have done when you have spare time, then why you don't try issue that really opposite from that. One particular activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition info. Even you love Discover the Stars, you are able to enjoy both. It is good combination right, you still would like to miss it? What kind of hang-out type is it? Oh seriously its mind hangout guys. What? Still don't have it, oh come on its called reading friends.

Marian Dyer:

Do you really one of the book lovers? If yes, do you ever feeling doubt while you are in the book store? Try and pick one book that you find out the inside because don't judge book by its handle may doesn't work the following is difficult job because you are scared that the inside maybe not while fantastic as in the outside search likes. Maybe you answer might be Discover the Stars why because the fantastic cover that make you consider regarding the content will not disappooint anyone. The inside or content is usually fantastic as the outside or cover. Your reading 6th sense will directly guide you to pick up this book.
